### UD Huasimpamba

Technician in automotive electromechanics

Graduated in 2018 - 2019

Demo: [https://drive.google.com/file/d/1DyyRi3wouIqcIDTs\\_jHnA7Hr4x1cQezv/view?usp=share\\_link](https://drive.google.com/file/d/1DyyRi3wouIqcIDTs_jHnA7Hr4x1cQezv/view?usp=share_link)

## MAIN PROJECTS

### Weather forecast

*An app where users can view the weather environment wherever the user is.*

- Web and Android design and development using Weather API
- This App is made with React.js, allowing to obtain weather information according to your location.

demo: <https://forecast-weather.netlify.app/>

### rick and morty

*Presentation of the characters of the Rick And Morty series*

- It is handled through calls and also handling the query params
- The search engine by dimension name was implemented.

Demo: <https://rick-and-morty-120.netlify.app/>

### Movies API

*Presentation of a movie api and all its requirements*

- Creating a movie api, with Node.js, using PostgreSQL as database, using firebase, Multer
- Managing jwt, Using a Skeleton as a base, with REST requests

Demo: <https://app.swagqerhub.com/apis-docs/CPALATE18/api/1.0.0>

### Pokemon

*App for the presentation of each Pokémon from the Pokémon Api*

- Making protected routes handling tokens
- You only need to register a name to be able to access the different routes.

Demo: <https://pokemon-120.netlify.app/>

## WORK EXPERIENCE

### Automotive electromechanical workshop

Pelileo, Tungurahua, Ecuador

#### Junior Automotive

August 2019 – February 2020

- Customer service with failures and breakdowns of their gasoline vehicles;
- Working efficiently, dealing with mechanical problems;
- Solving problems effectively and with conclusions proven by documentation.

## SKILLS

Demonstration of adaptability and coordination skills when solving many challenges in the work team;

Teamwork with responsibility and productivity between projects of programming technologies in the academy

## PROGRAMMING LANGUAGES

1 year: javascript

## TECHNOLOGIES

HTML, CSS, JavaScript, React.js, Node.js, PostgreSQL.

## ONLINE COURSES

Full-Stack Programming
